SOFTWARE DEVELOPER

I am an experienced software engineer with above 3 years of dedicated service in the IT industry, I have leveraged my expertise in coding languages such as Golang to develop and debug robust and scalable solutions. My professional journey is marked by a demonstrated track record of successfully executing multitasking projects and effectively collaborating with team members.

SKILLS

- Golang
- Vue.js
- MongoDB
- Git
- Redis
- Html / CSS
- REST Api
- Linux manual deployment
- Basic knowledge about AWS lambda
- Docker
- Microservices
- Agile Methodology
- UI Manual Testing
- Robo Mongo 3T

PROFESSIONAL EXPERIENCE

Hr 365

Golang Developer

Nov 2024 - Present

- Create RESTful APIs to facilitate communication between the frontend and backend systems.
- Ensure that APIs are well-structured, efficient, and easy to use by the frontend.
- Build the frontend of the application using Vue.js.
- Implement logic changes to interact with the backend through the RESTful APIs.

UST Global

Developer II

Jan 2024 - Nov 2024

- I collaborate with cross-functional teams to translate business requirements into scalable and efficient applications.
- write a MongoDB Queries and debugging the angular issues
- My role involves writing clean, maintainable code, conducting thorough testing, and implementing best practices in software development methodologies.
- Engage in Agile methodologies including sprint planning, daily standups, and retrospectives.

Logikoof Technologie Pvt.Ltd

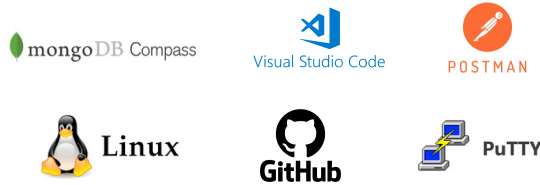

Software Engineer

July 2021 - Jan 2024

- Actively gather client requirements and participate in meetings to align project goals with client expectations.
- Pivotal contribution to developing and enhancing the Identity Provider (IDP) using Golang.
- Proficiency in leveraging cutting-edge technologies for development.
- Design and implementation of RESTful APIs to improve communication between frontend and backend systems.
- Write complex MongoDB queries and implement database features to enhance system functionality.
- Engage in Agile methodologies including sprint planning, daily standups, and retrospectives.
- Address blocker and critical sonar violations to ensure high-quality, maintainable code across frontend and backend components.

TOOLS WORKED

PROJECT

Human Resources Management Services

HRMS is an all-in-one HR platform designed for modern companies seeking to centralize their HR operations, automate repetitive tasks, and empower employees to be their authentic selves at work, thus enabling them to unleash their full potential.

- write a all api's in Golang
- Successfully enabled a chat bot on this application as a REST full Microservices api.
- Worked with several third party packages such as excelize, whmltopdf, etc.
- worked on Data Structures and Algorithms
- Made several calculations based on the client's requirement such as the pay scale of an employee, leave policy, etc.
- Provided details reports on employee productivity such as Active hours and other parameters.
- Provided insights on billable hours for each employee.

Nicessm

NicesSM is a platform designed to offer climate exchange and agriculture-related advisories to farmers. Its overarching vision is to act as a vital bridge connecting scientists and farmers, facilitating the exchange of valuable information and knowledge.

- Successfully intergraded with multiple communication channels such as WhatsApp.SMS,E-Mail in Golang
- Coordinating with the UI and Android team to get the desired results & testing the flow of the task.
- Successfully Integrated with multiple online payment gateways.
- Established a Web socket connection with client and server for seamless data transfer.
- Worked on Geospatial queries to identify nearest utility center for farmers from their location

Bihar Municipal Corporation

Using this portal citizen can pay online property tax, also citizen can apply online for self assessment with the help of this website, Citizen can search their property by Name, Ward, Rate, Zone. Department can generate online demand of property also citizen can download these details at their desktop

EDUCATION

Bachelor of Engineering

Gnamani College of technology

Diploma Electrical & Electronic Engineering

Paavai polytechnic college

12th Std

R.C higher secondary school
