EDUCATION

- MSC From The North Cap University, Gurgaon, with 78%.
- BA From Sh.L.N.HINDU COLLEGE, Rohtak with 75%

Highlights:

- Awarded as Star performer (Gem Award) of the quarter from Trupp Global Technologies Pvt. Limited
- (Idea Award) of the quarter from Lead at Zucol Services.

SIMRAN POWER BI DEVELOPER

PROFILE SUMMARY

- Performance driven professional with more than 3 years of experience in Data Analytics as Business Analyst.
- Proficient in analysing large datasets, extracting valuable insights, and providing actionable recommendations to drive informed business decisions.
- Strong ability to create compelling visualizations using tools like Tableau or Power BI, enhancing data-driven storytelling and communication.
- Diagnosed and resolved complex technical issues, collaborating with product teams to design and implement effective solutions, resulting in a 30% reduction in issue resolution time.
- Interfacing with business leaders and customers to prepare business and product requirements for new initiatives. Skilled in Power BI (power query, Advanced DAX measures, data modelling) and Advance Excel & SQL.
- Proficiency in creating interactive and functional prototypes.
- Ability to simulate user experiences and gather feedback.
- Experience with tools like Figma, InVision, or adobe for prototyping.

EXPERIENCE

Power-BI Developer (Orange Mantra) (Sept'24 -current) Working at IIFL

- **Azure Synapse Analytics:** Designed and implemented end-to-end data solutions for sales analytics at IIFL using Azure Synapse, optimizing data warehousing, analytics, and reporting for large datasets.
- **Data Pipeline Automation:** Developed and maintained automated ETL/ELT data pipelines in Azure Data Factory, ensuring seamless integration of sales data from multiple sources into Azure Synapse.
- **Power BI Data Freezing:** Implemented data freezing techniques in Power BI for IIFL's sales project, enabling consistent and historical reporting by freezing data snapshots to support accurate sales insights.
- **Data Modeling and Reporting:** Created advanced data models and dashboards in Power BI for sales analysis, using DAX for complex calculations and KPIs to support business decision-making.
- **Collaboration and Support:** Worked closely with cross-functional teams at IIFL to understand sales requirements, providing data-driven solutions and training end users on Power BI and data pipelines.

Data Analyst -Adda247 (Nov'22 – sept'24)

- **Business Reports:** Preparing final analysis reports for the stakeholders to understand the data-analysis steps, enabling them to take important decisions based on various facts and trends.
- **Data Visualization:** Created compelling visualizations using tools like tableau or Power BI, translating data into easily understandable formats for stakeholders. Also involved in automation of Reports in Power BI.
- **SQL Skills:** Developed and executed SQL queries for efficient data extraction, manipulation and analysis from relational databases.

SKILLS

- RDBMS(SQL/MYSQL)
- Advance Excel
- Azure Synapse
- Data pipeline
- Power Apps
- Power BI/ Tableau SPSS
- Google Data Studio
- Data Visualization
- Data Modelling
- Figma / InVision Python

- **Team Collaboration:** Collaborated seamlessly with cross-functional teams, providing valuable insights and contributing to a data-driven organization culture.
- **Data Analysis:** Analysed large sets of data, resulting in a 20% increase in efficiency and productivity. Applied advanced analytics techniques to interpret complex datasets and extract actionable insights for strategic decision-making.
- Collaborate with stakeholders to determine & drive product vision and build trust by maintaining an accurate and achievable roadmap.

Data Analyst - Trupp Global Technologies Pvt, HR (Apr'22 - Oct'22)

- Assisted in the analysis of large sets of data, resulting in a positive impact on the company's overall performance.
- Presented detailed reports each quarter to upper management alongside my apprentice supervisor.

Technical Research Expert- Zucol Services, Gurgaon, HR

(Feb'21 - Apr'22)

- Assisted superiors with interpreting data and compiling it in an organized manner.
- Assisted in the design and development of an ETL pipeline, resulting in a 30% increase in data integration efficiency.
- Worked with cross-functional teams to develop and implement data quality checks, resulting in a 25% reduction in data errors.
- Preparing Daily, Monthly, Quarterly Reports
