Sreenivasulu Chevuri

Oracle Database Administrator – Senior Architect

📱 +91 – 9481692140   ✉ sreenichevuri40@gmail.com/chevuris40@gmail.com   🏠 Bangalore

Pursue a challenging role as an Oracle Database Administrator, focusing on cloud solutions, migration strategies, and optimizing performance to drive impactful results in the IT sector.

🎓 Education

2002: B.Tech. in Computer Science & Information Technology from Jawaharlal Nehru Technological University, Hyderabad

📑 Areas of Expertise

- Cloud Database Solutions
- High Availability Architectures
- Disaster Recovery Planning
- Database Migration
- Performance Optimization
- Data Security
- Capacity Planning & Management
- Database Design & Implementation
- Customer Relationship Management
- Project Management

⚙ Technical Skills

- **Operating Systems:** Windows, UNIX, Linux
- **Databases:** Oracle (8i, 9i, 10g, 11g, 12c, 18c, 19c), SQL Server (2005, 2008, 2012, 2016), Exadata, GoldenGate, RMAN, ASM, RAC, Performance Tuning, AWS
- **DB Monitoring:** AWR, ADDM, Explain Plan
- **Oracle Utilities:** SQL*Loader, Export/Import, Data Pump, TOAD, PuTTY
- **Languages:** SQL, PL/SQL

👤 Profile Summary

- Possess Total of **Over 16 years of experience and 12 Years of Exp in Oracle Database Administration** across Finance, Technology, & Government domains.
- Last worked as **Oracle DBA SME at Dell Technologies,** driving enterprise-scale database strategies and cloud transformation.
- Expert in leveraging advanced database technologies and methodologies, including **Exadata and Golden Gate,** to enhance data processing capabilities and ensure optimal performance across diverse environments.
- Proficient in **performance tuning, high availability, and disaster recovery** to ensure mission-critical database resilience.
- Achieved **significant gains in uptime and reliability** through proactive optimization and strategic remediation.
- Excelled at **cross-functional collaboration, aligning DBA solutions with business goals** through strong leadership and communication.
- Skilled in **cloud-native architectures and tools like AWS, Azure, OCI,** ensuring seamless database migration and governance.

💼 Work Experience

New York Global Consultants Pvt. Ltd.| Bangalore
Designation: Oracle DBA SME   **Oct'24 – Till date**

Verinon Technology Solutions Pvt. Ltd. | Bangalore   **Apr'24 – Aug'24**
Designation: Oracle DBA SME

L&T Infotech | Bangalore   **Oct'22 – Apr'24**
Designation: Oracle DBA SME

Wipro | Bangalore   **Mar'21 – Sep'22**
Designation: Oracle DBA SME

Fidelis Group | Bangalore   **Dec'20 – Feb'21**
Designation: Oracle DBA Level 4

DXC Technology | Bangalore   **Dec'18 – Dec'19**
Designation: Oracle DBA Level 4

Tech Mahindra | Bangalore   **Nov'15 – Nov'18**
Designation: Oracle Database Administrator

Oracle Corporation | Bangalore   **Mar'15 – Nov'15**
Designation: Oracle Database Administrator

ATLAS Systems | Bangalore   **Dec'14 – Mar'15**
Designation: Oracle DBA

ZAFIN | Bangalore   **Jan'14 – Oct'14**
Designation: Assistant Consultant - Oracle DBA

TCS | Bangalore   **Dec'11 – Dec'13**
Designation: Oracle DBA SME

IBM | Bangalore   **Oct'08 – Dec'11**
Designation: Advisory System Analyst (TL) - Oracle DBA

Accenture | Bangalore   **Sep'07 – Oct'08**
Designation: Senior Software Engineer - Oracle DBA

**HCL	Bangalore**	**Feb'05 – Sep'07**

Designation: Senior Specialist Systems - Oracle DBA

**Tech Mahindra	Bangalore**	**Aug'06 – Feb'07**

Designation: Oracle Database Administrator

**Oracle Corporation	Bangalore**	**Oct'05 – Jul'06**

Designation: Oracle Database Administrator

**Vertical Solutions	Chennai**	**Mar'02 – Oct'05**

Designation: Oracle Database Administrator

💼 Key Responsibilities Across the Tenure

- Performed table row trimming on live production Oracle databases hosted on cloud platforms with near-zero downtime, improving storage efficiency and system performance.
- Led end-to-end cloud migration of enterprise databases to AWS, including planning, provisioning, data transfer, testing, and final cutover, ensuring seamless business continuity.
- Configured and managed Oracle Data Guard and RAC environments for high availability and disaster recovery, including DR drills, sync validation, and performance monitoring.
- Administered high-transactional Oracle databases supporting OLTP and DSS workloads, ensuring peak performance through in-depth tuning and proactive capacity planning.
- Performed 10g to 11g database upgradation as part of a major migration initiative for the Mi3 to G4 release on the MI Revenue product (ZKB project).
- Set up and managed complex AWS infrastructure including EC2, RDS, VPCs, subnets, and S3, enabling scalable and secure deployment of database services.
- Designed and implemented enterprise-wide backup and recovery strategies using RMAN, AWS RDS snapshots, and S3 storage, achieving aggressive RTO/RPO targets.
- Troubleshot Sev-1 issues across Oracle and Exadata platforms, including FRA saturation, ORA errors, and memory bottlenecks, restoring normal operations within SLA windows.
- Developed and executed performance tuning strategies, including index creation, SQL optimization, and memory configuration, tailored to Cognos reporting and ETL job needs.
- Created new development environments using production data, applying masking and compliance standards, and streamlining project onboarding for developers.
- Delivered weekly and monthly performance and capacity reports to senior leadership, enabling informed planning for infrastructure scaling and issue resolution.
- Collaborated with UNIX, Storage, and Backup Teams to resolve cross-platform issues affecting database availability and stability, working as primary escalation point.
- Managed over 1200 databases, performing daily health checks, user administration, backup validation, and space management on Linux-based systems.
- Directed a team of DBAs, managed resource planning, shift rosters, PMO reporting, and led client meetings for status reviews and future roadmap discussions.

Achievements: (Confirm)

- Automated database cloning and refresh processes using shell scripting, reducing environment setup time for QA and development teams by 60%.
- Worked on very large-scale databases of above 100TB, dealing with space management, tuning, and performance optimization.
- Achieved a reduction in database downtime by 50% through targeted performance tuning and optimization strategies.
- Directed a cloud migration initiative that transitioned more than 100 databases to AWS, leading to enhanced scalability and cost efficiency.
- Acknowledged for outstanding project management capabilities, earning commendations from clients for timely delivery and high-quality service.

📁Projects

Wells Fargo
- ➲ Role: Oracle DBA Architect
- ➲ Software Used: Oracle database 10g, 11g, 12C, 18C, AWS, Unix/Windows, Azure, OCI
- ➲ Duration: October 2024 - February 2025

MCA (Ministry of Corporate Affairs, Govt. of India)
- ➲ Role: Oracle DBA Architect
- ➲ Software Used: Oracle Database 10g, 11g, 12C, 18C, AWS, Unix/Windows, Azure, OCI
- ➲ Duration: October 2022 - April 2024

Xoserve - Central Data Service Provider for Britain's gas market
- ➲ Role: Oracle DBA SME
- ➲ Software Used: Oracle Database 10g, 11g, 12C, 18C, AWS, Unix/Windows, MySQL Database
- ➲ Duration: March 2021 - September 2022

UCO Bank
- ➲ Role: Oracle Database Administrator
- ➲ Software Used: Oracle Database 10g, 11g, 12C, 18C, AWS, Unix/Windows
- ➲ Duration: December 2020 - February 2021

Convatec
- ➲ Role: Oracle Database Administrator with AWS Cloud
- ➲ Software Used: Oracle Database 10g, 11g, 12C, 18C, AWS, Unix/Windows
- ➲ Duration: December 2018 - December 2019

Volvo Cars Corporation
- ➲ Role: Oracle DBA and Exadata administrator
- ➲ Software Used: Oracle Database 10g, 11g, Exadata, GoldenGate, Unix/Windows, MySQL database
- ➲ Duration: November 2015 - August 2016

ACS-Oracle Corporation
- ➲ Role: Oracle DBA and Exadata administrator
- ➲ Software Used: Oracle Database 11g,12c,19c Exadata, GoldenGate, Unix/Windows, MySQL database
- ➲ Duration: March 2015 – November 2015

THOMSON REUTERS
- ➲ Role: Oracle Database Administrator - Oracle DB
- ➲ Software Used: Oracle Database 10g, 11g, 12C, AWS, Golden Gate, Unix/Windows
- ➲ Duration: September 2016 - November 2018

GENERAL MOTORS-US
- ➲ Role: Oracle Database Administrator - Oracle DB
- ➲ Software Used: Oracle Database 10g, 11g, 12C, AWS, Golden Gate, Unix/Windows
Duration: October 2008 - December 2011
